

Serial No.: 10/775,261

Attorney's Docket No.: 10559/187002/P8090C

REMARKS

Claims 1-38 are pending in the application. Claims 1-26 stand rejected to under the doctrine of non-statutory double patenting. Claims 27-38 stand objected to.

I. The suggestion regarding the specification

The suggestion that a "Field of Invention" and "Summary" section be included is noted. However, Intel Corporation has taken the position that they prefer to omit both "Field of Invention" and "Summary" sections in their applications because the patent statutes under USC 35 do not specifically require such sections.

II. The Obviousness-type Double Patenting Rejections

A terminal disclaimer is being filed herewith, obviating the obviousness-type double patenting rejections.

CONCLUSION

It is believed that all of the pending claims have been addressed in this paper. However, failure to address a specific rejection, issue, or comment, does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above are not intended to be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as

specifically stated in this paper, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

Claims 1-38 are in condition for allowance, and a notice to that effect is respectfully solicited. If the Examiner has any questions regarding this response, the Examiner is invited to telephone the undersigned at (858) 678-4311.

No fees are believed due. Please apply any other charges or credits to Deposit Account No. 06-1050.
